Who We Are

Soyka & Company is a small management consulting business based in the metropolitan Washington, DC area that offers seven years of successful experience supporting numerous federal agencies and programs, as well as large and small corporations, trade associations, and other entities. We help our clients to improve organizational effectiveness, institute sound environmental and other management practices, and stimulate dialog and constructive change. Our founder and President, Peter Soyka, offers 25 years of experience providing policy and management services to U.S. federal department and agency clients.

What We Do

We help our clients identify and focus on their key management and organizational issues, their root causes and contributing factors, and possible solutions. We determine what questions need to be answered, devise and implement strategies to address them, and develop and deliver the facts, analysis, and insights that enable our clients to make sound, though sometimes controversial, policy, management, and organizational decisions with confidence. Services include:

- ◆ **Fact-Finding and Analysis**
- ◆ **Strategy Development**
- ◆ **Policy and Regulation Development Assistance**
- ◆ **Management Systems Development, Implementation, and Evaluation**
- ◆ **Implementation Assistance, and**
- ◆ **Measurement, Evaluation, and Reporting**

Client Benefits

- ◆ **Insightful, actionable, and defensible facts and analysis**
- ◆ **Greater understanding of technical issues and stakeholder interests and concerns**
- ◆ **Improved clarity, personal ownership, and commitment among leaders and staff**
- ◆ **Greater organizational effectiveness and efficiency**
- ◆ **Enhanced productivity and reduced costs**
- ◆ **Improved relationships and credibility, and**
- ◆ **Better morale and internal cohesion.**

Importantly, during this time of severe budgetary constraints, Soyka & Company delivers more value in return for the investment of our clients' limited resources than our competitors. We consistently deliver results conferring short-term benefits as well as longer-term advantages at both reasonable hourly rates and at a very economical overall project cost.
